This dictionary has been produced to fill the need that exists in the field of business, banking and the stock market and the world of law in general and that has arisen as a result of the development in the world economy and the corresponding increased contact with international markets.

Similarly, the European and world situation is forcing our entrepreneurs to search for and develop new markets.

Furthermore, the expansion of our current economy and the higher living standards achieved means that our entrepreneurs and investors must make a greater effort to keep up with the usual terminology used in member countries of the European Community and to have on hand, and in a single volume, the most common terms used in law, economics, banking, and in the stock market in the English and Spanish languages, widely used in the business world.
